

NELLO

WALL SYSTEMS

PCORI—Washington, D.C.

PROJECT PROFILE

The Patient-Centered Outcomes Research Institute (PCORI) is a nonprofit, nongovernmental organization located in Washington, DC. Congress authorized the establishment of PCORI in the Patient Protection and Affordable Care Act of 2010. PCORI is dedicated to improving the quality and relevance of evidence available to help patients, caregivers, clinicians, employers, insurers, and policy makers make informed health decisions. When PCORI moved into its new headquarters, a sophisticated, yet cost-effective, design solution was needed.

CHALLENGE

This short time frame tenant fit out required extensive remodeling while keeping the building's critically important LEED Gold infrastructure and the original design intent.

SOLUTION

Alliance Architects found Nello's Clarity frameless glass wall system to be the ideal solution. The system enabled the creation of an elegant yet flexible environment that could retain the building's LEED Gold infrastructure. Nello provided two floors of practical, cost-effective Clarity glass walls for PCORI's headquarters. In all, a total of 51 offices with sliding glass doors and nine conference rooms with frameless glass pivot doors, including "Hold Open" and "Self-Close" hardware features were installed, all while adhering to the client's fast-track schedule.
